# Ball Bearing Swivels

## Best Ball Bearing Swivels Money Can Buy!

Sampo ball bearing swivels sell better because they work better, offering anglers maximum protection against twisted and tangled lines. . .an absolute "must" for trolling, big game fishing and spinnerbaits. Anywhere you need to eliminate line twist. Sampo ball bearing swivels let lures perform at their best!

Don't be fooled by those imported, cheaply made imitations. Offer your customers the Sampo 5-point difference.

1. High-polished stainless steel ball bearings roll with ease. Won't bind or jam.
2. Tapered raceways reduce friction. Other brands have flat raceways that can jam.
3. "Funnel" design cuts spindle-to-wall friction. **A Sampo Exclusive!**
4. Unique tapered holes mean rings & snaps swing freely and pull from the center for perfect alignment.
5. American-made, so you know these are the strongest swivels on the market today!

### NEW PACKAGING

Sampo introduces new ball-bearing swivel packaging. We now offer our ball-bearing swivels in the same smaller quantities as the bubble pack series but packed in space saving 3" x 4" zip-lip bags for convenient display.

The Bubble Series will be phased out this year. The 'B' series will be packaged in zip-lip bags. Catalog numbers, package quantities, and price will remain the same as the current bubble cards. UPC codes will remain the same also.

### Packaging. . .For Sampo Ball Bearing Swivels Bubble Series

The Bubble Series will be phased out this year. The 'B' series will be packaged in zip-lip bags. Catalog numbers, package quantities, and price will remain the same as the current bubble cards. UPC codes will remain the same also.

**Zip-Lip Bags** Handsome, resealable zip-lip bags are either 3" x 4" or 4" x 4", and punched for pegboard display. Packed in attractive shelf box for sales or inventory storage. Each bag carries 12 swivels.

**To order, add suffix "Z" to catalog no.**

Zip-Lip Bag

# SAMPO BALL BEARING SWIVELS

# SAMPO BLACK FINISH SNAP/SWIVELS

**GREAT NEW IDEA!!!** SAMPO has found a wonderful new product to clean the salt residue from swivels.

The brand name is "Salt-X". You can get more information on this product by contacting:

Innovative Chemicals, Inc., 829 Bridlepath Lane, Charlotte, NC 28211-2004, (800) 827-2189, (704) 364-4445 Fax

## Patented Stay-Lok™ Snaps - Stay put!

The list of reasons to fish genuine Sampo snaps and swivels continues to grow. Our new Stay-Lok™ snaps feature a patented clip-guard ring which virtually eliminates any possibility of accidental opening. And with all of their other features, they might just be the most dependable snap-swivels on the water today!

The clip passes through this guard ring before attaching to the shank. The ring locks it in place so it can't pop open!

- High tensile strength 302 stainless steel construction
- Ball bearing barrel swivels with welded rings
- Non-glare, low gloss Salt Seal™ black finish
- Rounded end for more natural lure action
- Weedless design

310	10'	8	1/2"
317	10'	8	3"
400	6'	10	1/2"
409	6'	10	3"

**No. 86P.** Belt Sheath.

**No. 105P.** 6 1/2" short nose, parallel action, side cutting pliers. All-purpose design, spring loaded for one hand operation. Cutter stays sharp even after nipping heavy wire. Ideal for putting together terminal tackle and removing hooks. Black oxide jaw finish fights rust. Each plier comes with tough leather belt sheath.

**No. 107P.** Black Polypro-web with black leather reinforced back, riveted belt clip, bright orange Sampo logo. Designed to fit both 95 and 105 plier.

# DONNIMAR™

ENTERPRISES INC.

2 0 1 6 C A T A L O G

*The Quality Fisherman Trust, The Durability They Demand!*

# Treat your Donnmars pliers right!

Donnmar pliers are precision instruments designed to provide fishermen with years of flawless performance – provided they are used for fishing applications like cutting and gripping. Any other use may void the warranty and impair the smooth operation of these exceptional fishing tools. Here are some guidelines for proper use –

## “Do” use your Donnmar’s to –

- Cut monofilament line up to 400 lb. test
- Cut braided line up to 200 lb. test
- Cut wire up to 250 lb. test
- Grip lines, leaders or fish
- Remove hooks from fish

## “Don’t” use your Donnmars to –

- Hammer or pound anything
- Cut line or metal over the rated test
- Cut or snip any material other than fishing lines/leaders
- Pry or force anything (like a crowbar)
- Do not twist the pliers while cutting wire

## Caring for your Donnmars

- Rinse with fresh water after use
- Clean jaws with a mild abrasive (applied to “soft” toothbrush)
- Wipe grips with wet, soapy cloth, rinse and air dry
- Touch a drop of Super Lube™ (or similar) to the pivot joint.

## Stiff Action Is Natural In New Donnmar 950 Pliers

Donnmar 950 pliers are a precision instrument with cutting blades hand fitted to tolerances of one-thousandth of an inch. The blades on the 950 cut with a scissors action where the cutting edges actually cross. This assures a clean, thorough cut every time. Initially, the action of the pliers may seem somewhat stiff when cutting mono, wire or super lines. Like a pair of good shoes, the pliers will ‘break-in’ with use. We do not, therefore, recommend blade adjustment.

However, if you prefer a more ‘relaxed’ plier feel, you may adjust the blade. To do so, remove the blade screw carefully so as not to lose the screw. Dab the tip of the screw with removable Loctite Threadlocker, replace the screw, but do not tighten completely. Adjust the blade to achieve the desired cutting ‘feel’, then tighten the screw.

## ACCESSORIES *World class sportsman's tools designed for the rugged outdoors.*

### CP212 Big Game Hook Sharpener

This advanced sharpener is ideal for reconditioning big game hooks up to 14/0.

Every saltwater tackle box should have one. Also popular among Musky and Pike fishermen

- In just a few strokes, the hook is needle sharp.
- File assembly is easily replaceable.

### CP100 Hook Sharpener

Handles a wide variety of hook shapes and sizes. Restores a sharp point in a matter of seconds.

- Palm sized, fits flat in shirt pocket or pants.
- Easy lanyard attachment.

### CP125 Deluxe Hook Sharpener

This palm-sized sharpener is designed to hone straight shank hooks to a needle sharp point for fast penetration.

- Features built-in magnifying glass to check hook point.
- Disassembles for cleaning and file rotation.
- Fits in pocket, fishing vest, or tackle box.
- Accepts lanyard.

**CP212RF Replacement File** with stainless screws for CP212 Big Game Hook Sharpener.

### CP500 Knife Sharpener

A lightweight, securely built, two-stage sharpener that's an excellent choice to hone pocket knives or thin blade fillet knives.

- Tungsten-Carbide cutters shape and align the knife edge.
- Arkansas stone provides secondary finishing for a razor sharp edge.

### CP501 Fisherman's Knife/Hook Sharpener

This versatile knife and hook sharpener produces professional results yet weighs only about 1 oz. It fits comfortably in pants or jacket pocket.

- Tungsten-Carbide cutters shape and align the knife edge.
- Integral hook sharpener gives new life to dull hooks.

Models CP500 and CP501 are approved by the North American Hunting Club.

# Stainless Steel Pliers

## New CP880

Fishermen who carry Donnmarm Stainless Steel pliers find that they are indispensable tools in any fishing situation. Now the legendary Donnmarm reputation for quality, strength and durability will extend to anglers who head to the water with the *all-new* CP880 pliers on their belt.

Donnmarm's new CP880 features the same great performance and smooth operation as the 950 series in a *side-cutting* design that many sportsmen prefer. Whether removing a hook or trimming the tag end of your line... Donnmarm pliers are the perfect tool to do the job fast and efficiently.

### CP880

Length (overall): 7 1/4 inches  
Weight: 8 ounces

*Optional military grade, treated leather holsters resist water, scuffs and stains. Can be worn with or without a belt. Available for all Donnmarm pliers.*

### CP950

Length (overall): 7 3/8 inches  
Weight: 10.5 ounces

### CP900

Length (overall): 7 3/8 inches  
Weight: 10.5 ounces

### CP850 / CP850EX

Length (overall): 6 3/8 inches  
Weight: 5 ounces

#### Stainless Steel Series Features

- Handcrafted in upstate New York.
- Constructed of marine grade stainless steel.
- Lightweight, yet amazingly strong and durable
- Non-slip Sanoprene® rubber grips molded into the handles
- Super sharp (tungsten-carbide) blades cut nylon, mono (up to 450 lb.), braided line, super braids, and wire (braided and single strand) up to 180 lb. test.
- Blades are replaceable, so you will always have a clean cut.
- The 'gripping' surface of the jaws features a 20° diamond pattern for a secure hold.  
(CP850 models feature a channel groove jaw surface)
- The pivot bearing is machined from solid brass. It is electroless nickel plated for a lifetime of smooth operation.
- Internal spring loading allows convenient one-hand operation. (Except model CP850)
- Donnmarm stainless steel pliers will not rust, corrode or oxidize. They are warranted for 5 years.

*Optional military grade, treated leather holsters provide a glove-fit for Donnmarm pliers. Stainless steel belt clip and lanyard ring help keep pliers close at hand and secure. Can be worn with or without a belt.*

# Titanium Pliers

## New CP880 Ti

Donnmar Titanium pliers continue to be the choice of serious fishermen across the country. They are revered for their ultra-lightweight, superior strength and easy-to-grip design. Now a brand new model joins the Titanium line-up.

The **Donnmar CP880Ti** boasts the same outstanding features and unmatched performance as the popular 950 series in a side-cutter version – a design preferred by thousands of anglers. Once again, Donnmar has delivered a product that answers the fisherman's needs while promising years of dependable use in fresh or salt water.
